Re: Surface Water Application

S 431676

Your application and check No. 11348 in the amount of \$10.00 are being returned for the following reasons:

1. You indicate that your source is an unnamed stream/spring. You will need to submit separate applications for each source you are applying for (application enclosed for your potential use).
2. You indicate that 420 acres will be irrigated. The Section Map you provided would appear to total 440 acres. You will need to specifically identify on the map the location of the 420 acres to be irrigated.
3. You will need to provide the specific number of cabins to be served under this application.
4. The legal description you provided does not total 420 acres. The legal description provided has been highlighted in pink. As you can see, only ten acres in the NE $\frac{1}{4}$ are highlighted. The SE $\frac{1}{4}$ has not been highlighted at all. Any permit that might issue under this application would only consider the area highlighted in pink (a total of 130 acres). You will need to provide any additional legal descriptions for the full 420 acres in order for it to be considered under this application.
5. You will need to provide specific written driving instructions to your property on the attached Section Map page.

You will retain your priority date of December 16, 1992, if you return your application, check and all the above-requested information by January 21, 1993.

You may contact this office at (509) 575-2800 if you have any questions.

Sincerely,

Myria J. Autrey Johnson
